

8 MAY 1978

MEMORANDUM FOR: Acting Legislative Counsel
FROM: Director of Central Intelligence
SUBJECT: Derwinski Matter

1. At the conclusion of the Cabinet Meeting on 8 May, I talked to Secretary Brown about the Derwinski matter. He indicated that Defense was prepared to provide Chairman Hamilton with summaries of the material which they had 25X1

2. He and I agreed that they would try this to see if it would satisfy the Committee and that we would then have to decide what to do if that was not adequate. In short, we have yet to cross the bridge in providing them raw NSA material and hope maybe we can avoid doing so.
